Brewster's  
MillionsCopyright, 1904,

(RICHARD GREAVES)

The evening ended with fireworks and a dance in the open air—a dance that grew gay under the masks. The wheels had been well oiled, and there was no visible failure of the carnival spirit. To Brewster it seemed a mad game, and he found it less easy to play a part behind the foolish mask than he expected. His own friends seemed to elude him, and the coquetries of the village damsels had merely a fleeting charm. He was standing apart to watch the glimmering crowd when he was startled by a smothered cry. Turning to investigate, he discovered a little red domino, unmistakably frightened and trying to release herself from a too ardent Puchinello. Monty's arrival prevented him from tearing off the girl's mask and gave him an entirely new conception of the strenuous life. He arose fuming and sputtering, but he was taken in hand by the crowd and whirled from one to another in whimsical mockery. Meanwhile Monty, unconscious that his mask had dropped during the encounter, was astonished to feel the little hand of the red domino on his arm and to hear a voice not all unfamiliar in his ear.

"Monty, you are a dear. I love you for that. You looked like a Greek athlete. Do you know—it was foolish—but I really was frightened."

"Child, how could it have happened?" he whispered, leading her away. "Fancy my little Peggy with no one to look after her. What a beast I was to trust you to Pettingill. I might have known the clump would have been knocked out by all this color." He stopped to look down at her, and a light came into his eyes. "Little Peggy in the great world," he smiled; "you are not fit. You need—well, you need—just me."

But Mrs. Valentine had seen him as he stood revealed and came up in search of Peggy. It was almost morning, she told her, and quite time to go back to the hotel and sleep. So in Bragdon's charge they wandered off, a bit reluctantly, a bit lingeringly.

It was not until Monty was summoned to rescue Reggie Vanderpool from the stern arm of the law that he discovered the identity of Puchinello. Manifestly he had not been in a condition to recognize his assailant, and a subsequent disagreement had driven the first out of his head. The poor boy

Monty's arrival gave him a new conception of the strenuous life, and was sadly bruised about the face, and

"And missed the fortune you have won? How foolish of you, Monty! You were a loser by several thousand dollars then," she objected, with whimsical inconsistency.

"But, Peggy," he said quietly, looking deep into her eyes, "it would have won me your respect."

HEADS THE LISTGovernor Hanly Placed in Foremost  
Rank of Reformers.

Indianapolis, July 31.—Unstinted praise for Governor Hanly in his law enforcement policy was given Sunday by the Rev. Dr. Scott Hershey of Boston, who declared Indiana's governor to be the greatest reformer of the age. Dr. Hershey is pastor of the First Presbyterian church in Boston, one of the largest churches of the city. He has always manifested an interest in the political and economic welfare of the country and his utterances are received as conservative and conclusive. His subject was, "The Conscience of Nations." After reviewing the growth of political reform in the United States Dr. Hershey said that the salvation of the country depended upon the men in high places who are morally upright and fearless. In this connection he cited examples of what he called "Typical Americans." "But of all the public officials who are working for civic and public righteousness," he declared, "none equals Governor Hanly of Indiana. His stand for law enforcement as the laws are written makes him the leader of reform governors. Next to him comes Governor Folk of Missouri, then La-follette of Wisconsin, and then Douglas of Massachusetts. These men are more than undoing the evil work of corrupt and unscrupulous officials elsewhere. They are developing a national conscience which will dictate for right for years to come."

This city was made the scene of one of the chapters of the troubles of the Equitable Life Assurance Society of New York Saturday night, when Noble J. Dilday, who since 1902 has been general manager of the company for Indiana, forwarded his resignation to Paul Morton, president of the company at New York city. With the resignation Mr. Dilday sent a statement setting forth his reasons for the step, chief of which was that the business of the Equitable in Indiana, because of the wrangle among the high officials of the society, has suffered a drop of almost 50 per cent. Mr. Dilday also explained that he is not in favor with O. E. Tarbell, who has recently been installed as vice president of the society and who, Dilday says, is trying to promote himself to the presidency by the new mutual plan which has been adopted by the Equitable.

That the properties of the streetcar and interurban railway companies of Indiana have almost doubled in value during the last year is shown by the assessments made against these companies by the state board of tax commissioners, now in session. The total assessed valuation of these properties is \$26,387,366 as compared with an assessed valuation of \$13,702,394 last year. While the aggregate assessment of the traction properties is much greater than ever before, there is no marked general increase in the individual assessments a mile, the increase being due almost wholly to the increased mileage of old lines and the building of new roads.

## A VALUABLE ALLY

Great Britain Sticks to  
Japan As Close As to  
a Brother.

HER LOYALTY TO JAPAN

Will Not Permit Her to Make Any  
Suggestion Regarding a Moder-  
ation of Peace Terms.Washington's Suggestions Along This  
Line Have Met With Consist-  
ent Rejection.

Washington, July 31.—Japan comes to the Washington conference assured that whatever her peace terms, they will have the sympathetic approval of Great Britain. Several suggestions from Washington to London that the cause of peace would be served by an explanation to Japan from her ally favoring moderation in her demands upon Russia have not availed to change the British government in its apparently unalterable determination to stand by Japan however severe she makes her conditions of peace, nor has the British government seen its way clear to render assistance to Washington in the effort which this government is making to obtain an armistice. Advice reaching here show that London is opposed to an armistice until Japan has been satisfied that Russia's plenipotentiaries are prepared to do more than discuss means of ending the war; if Russia is ready to conclude peace and has so empowered her plenipotentiaries, Great Britain, it is believed, might favor an armistice, but even in such event it is said she would not be willing to offer Japan advice on the subject.

As understood in Washington, Lord Lansdowne's position is that as the loyal ally of Japan, Great Britain can afford to take no step nor assume any attitude that would in the remotest degree redound to the advantage of Japan's enemy. However much London may wish peace for humanitarian reasons, her loyalty to Japan, which she pledged ally she is, prevents her even from indirectly bringing pressure to bear by suggestions, advice or otherwise, at Tokyo, regarding negotiations the effect of which might serve to moderate Japan's peace conditions or hasten a truce.

When Japan asks her ally for advice the London government, it is said, is prepared immediately to give it, but this advice will be based in Japan's interest as a primary consideration.

Nor is this attitude on the part of the London government misinterpreted in Washington as indicating that its officials do not share in the wish of the neutral powers for peace. It has been made plain that the activity of the president has the full sympathy of the British people, although their first thought, it is declared, must be in the interest of their ally. At the same time the London government in its exchanges with the American embassy in London has not hesitated to declare its confidence that Japan's terms will not be unreasonable, viewed in the light of the results of the war.

Keen interest is felt here in the negotiations which it is understood are making substantial headway between Japan and England looking to the renewal of the Anglo-Japanese alliance. The scope of the alliance, it is known, will considerably exceed the present union, though to what extent neither Europe nor Washington has been able to learn. The announcement of the main points of the new alliance soon after the conclusion of the Washington conference would not surprise diplomatic circles here.

## RUSSIANS ROUTED

Japanese Insure Their Occupation of  
Sakhalin.

Tokio, July 31.—The following dispatch has been received from the Japanese army headquarters: "Our independent cavalry which entered Rykoff (on Sakhalin Island, forty-five miles northeast of Port Due), July 27, withdrew on finding order in the city unfavorable to its occupation. Our army, intending to crush the enemy's forces before they retreated from the embankment west of Rykoff, commenced to advance at 3 a. m., July 28. The van, together with an independent body of cavalry, advanced by forced marches, taking and dislodging the enemy holding the northern extremity of Rykoff, and rushed into the town. Confused street fighting ensued, but the town was completely taken at 8:30 o'clock in the morning. The enemy's main strength, which opposed our right column, fled in disorder southward, taking the short route leading to Pareono."

"On July 28 a detachment of the enemy was sent south in pursuit of the enemy met the enemy's infantry, some 800 strong, at a point six miles south of Rykoff, and killed more than 200 and captured 500."

"The enemy's strength opposed to our right column was of some 3,000 infantry and four guns and four machine guns, and that opposed to our left column some 2,000 infantry and four guns."

## "Never," Says the Czar.

St. Petersburg, July 31.—The emperor has issued the following note in reply to an appeal from the clergy of

Orenburg not to conclude a shameful peace: "The Russian people can rely on me. Never will I conclude a shameful peace or one unworthy of great Russia."

## NATIONAL DIGNITY

Russia's Pride Will Cut Big Figure in  
Coming Conference.

London, July 31.—The Daily Telegraph's correspondent on board the Kaiser Wilhelm der Grosse, on which M. Witte, the Russian peace plenipotentiary, is a passenger, sends an interview which he has had with M.

GERGIUS WITTE, RUSSIAN REPRESENTATIVE AT THE PEACE CONFERENCE.

Witte, in which the latter said that if Russia and Japan had agreed upon a common basis before appointing peace plenipotentiaries, it would have been much better. As it was M. Witte said he regarded himself rather as an imperial courier sent to ascertain the terms of Japan. He was prepared to make peace, nevertheless, he added, as his powers were very complete, and he would discuss the demand based on Japan's actual military and naval successes in a businesslike spirit of give and take.

"But I cannot and will not," continued M. Witte, "entertain demands based upon expected military successes in the future. I am conversant with the humane intentions of my imperial master and I will do anything compatible with Russia's honor and dignity to establish that work of which I have been an unwavering advocate. My first task, however, in the new world will be to search for a basis for fruitful discussion."

## HEAVY RAINS

Cause Loss of Life and Destruction of  
Property in Connecticut.

Bridgeport, Conn., July 31.—Loss of life and immense damage to property followed the bursting of reservoirs north of this city as a result of the unprecedented fall of rain early Sunday. The precipitation in the series of showers which struck across Connecticut reached a total of seven inches. The dam at Ward's mill at Easton went out, sending a great body of water down through the town of Trumbull. In a short time the dam at the paper mill broke. There was no warning to the people who lived on the banks of what is usually a small water course. One person was drowned and several houses were swept away.

## THE SEARCH LIGHT

Of Official Investigation

ALL TAIN OF SCANDAL

Will Be Eliminated When Secretary  
Wilson Gets Through With  
Dragnet For Grafters.President Is Satisfied His Secretary  
Will Solve Difficult Problem  
Now Confronting Him.

Oyster Bay, N. Y., July 31.—Secretary Wilson of the department of agriculture is expected at Sagamore Hill today. His visit will enable him and the president to discuss the situation in the department as it relates to the investigations now in progress. All rumors of the intention of Secretary Wilson to resign from the cabinet may be put aside as merely conjectural.

HON. JAMES WILSON AND THE DEPARTMENT OF AGRICULTURE.

The secretary has no present intention of leaving the cabinet, and the president knows of no reason why he should resign.

The president, it may be said, reposes implicit confidence in Secretary Wilson and is thoroughly satisfied that he will solve the difficulties now presented to the entire satisfaction of the chief executive and of the country.

It is probable that Secretary Wilson would have come to Oyster Bay before this had it not been for the unsettled condition in his department, which rendered it practically impossible for him to leave Washington. He is pressing every phase of the investigations now in progress and will develop every fact which the country ought to know.

That the president is confident the secretary will purge the department of any scandal that may attach to it is evidenced by the fact that he has not interfered with the pending investigations. All matters brought to his attention have been turned over to Secretary Wilson with instructions to inquire into them. This the secretary has done and his work has the approval of the president.

It is the determination of both the president and Secretary Wilson to clear the department of agriculture of every form of graft. To this end the likelihood is that every bureau of the department will be inquired into carefully with a view of ascertaining whether any such condition exists as was developed in the bureau of statistics.

Quietly but effectively Secretary Wilson has been working to this end for many months. Many employees of the department have been dropped from the rolls practically without the knowledge of the general public. Some have been dismissed outright, while others have been permitted to resign. Assurance is given that no stone will be left unturned to eliminate every taint of scandal on the department of agriculture.

## A Boating Tragedy.

J., the two girls became exhausted and he was only able to keep them afloat until two men put them on the shore in a boat and took them on board. While Mr. Brown was trying to get into the boat it was upset and all were thrown into the water. The boatmen rescued Miss Todd, but Mr. Brown and his daughter were swept away by the current and drowned.

OLD PEOPLE  
AND THEIR TROUBLES

Old People have more of the pains, aches and discomforts of life than do the young. This is perfectly natural, because their blood is not so vigorous, nor their powers of resistance so great, and troubles that a younger, healthy constitution could resist often afflict them.

During the civil war I contracted Catarrh and suffered with its effects for many years. I tried various remedies and doctors, but with no good result. One day I found one of your pamphlets and read it carefully. I decided S. S. S. was the medicine I was in need of and I began its use at once. My health was dreadful, and as I was getting along in years, I had most of the pains and ailments incident to that time of life; but after taking this great remedy for awhile I began to improve and soon found myself a strong, well man. I am now more than 75 years of age, but my health is good, because I take an occasional bottle of S. S. S. Nothing equals it as a tonic and blood purifier, and I recommend it to those needing such a medicine. Fordyce, Ark. L. S. LOCKRIDGE.

Rheumatic pains, sleepless nights, fickle appetites, etc., are not imaginary with old people, as is sometimes thought. They need a medicine that will supply their blood with its lost vigor and build up and strengthen their constitutions. S. S. S. is the ideal remedy for Old People. It is made entirely from roots, herbs and barks, and does not injure the system in the least as do those medicines containing mineral ingredients. S. S. S. is gentle in its action, purifying the blood

of all poisons and relieving old age of its discomforts by supplying a robust, healthy constitution. It is the greatest of all tonics for increasing the appetite, toning up the stomach, promoting the digestion and building up the entire system. THE SWIFT SPECIFIC CO., Atlanta, Ga.

## Timely Thunderstorm.

Cleveland, O., July 31.—A crash of thunder woke up Leola Morton, daughter of Melville Morton, in time to save her father from death on account of chloroform administered by burglars. The burglars had broken in and chloroformed Morton and had succeeded in ransacking the house, securing a small amount of booty, when a terrible thunderstorm broke, awaking the daughter. She was hurrying to her father's room when she perceived the odor of the drug and called for help. Morton was revived after neighbors had worked for an hour over him.

## Movements of Taft's Party.

Kobe, July 31.—Secretary Taft and his party arrived here at 5 o'clock last evening from Kyoto. They were recipients of an enthusiastic welcome from the governor and the mayor and city officials and assembled thousands. Amid a display of day fireworks the party proceeded to the water front, where a short reception was held. Secretary Taft and Miss Roosevelt were given a number of presents. The steamer Manchuria with the party on board sailed at 10 o'clock last night for Nagasaki.

## Mounted Police Make Raids.

## Caused by Broken Axle.

AT A meeting of the democratic editors of Indiana at French Lick the other day one of the exponents of Hoosier democracy read a paper on "The Reformation of the Democratic Party." Most everybody will concede the necessity for an experience of that sort in the democratic party, but it was hardly to be expected that it would be publicly confessed in so definite a phrase by a leading exponent.

A LECTURE at Winona the other day said evidence of graft that existed 2,250 years ago have been discovered recently in exploring the remains of ancient cities. Nobody needs evidence of this sort to convince him that just such things existed then as well as now. Graft of one sort or another is as old as human nature, and the fact that the grafters are being pursued to-day more than in times past is no evidence whatever that there is any more of this graft than then. But the people are now more determined than ever to put the grafters out of business and that is being done.

## HUSBAND SHOTS HIS WIFE.

### Inflicting Wounds That May Prove Fatal.

Shooting Occurred on Pennsylvania Train Between Rockford and S. I. Crossing.—He is Now in County Jail.

Saturday night Edward Sherber shot and perhaps fatally wounded his wife just after she and her sister, Mrs. Thos. Tucker, had boarded the train at Rockford to come to this city. He fired four shots in rapid succession and all of them took effect.

Sherber boarded the train at Indianapolis and says he meant to go to Louisville. But when the train stopped at Rockford he got out on the platform. He saw his wife and her sister get on the train there. As the train started he followed them into the ladies' coach. He went immediately to the seat they occupied, shook hands with both of them and crowded himself into the same seat. A few words were exchanged when he drew a revolver and began firing at Mrs. Sherber. He was directly over her so that all the shots were fired at close range. He shot four times and would have shot twice more and emptied the gun had it not missed fire. One ball entered at the angle of the jaw and lodged in the right side of her neck near the jugular vein; another entered the left side of the neck and came out under the chin; another passed through the flesh on her shoulder and another entered at the front of her shoulder and ranged towards her throat. This ball was extracted but the one in the side of the neck is so located that it cannot be removed with safety. Mrs. Sherber was also shot through the right forearm but as only four shots were fired it is evident that this wound was caused by a ball that made one of the other wounds when she threw her arm up for protection. Just as he fired the first shot Mrs. Tucker grabbed his hand but he jerked loose from her in an instant and fired the other shots in rapid succession. Just as his revolver missed fire when he attempted to shoot the fifth time a Linton physician, who was a passenger in the ladies' coach, grabbed him and Conductor Jackson and Brakeman Fitch, who were both in the smoker when the shooting began, rushed upon him and disarmed him. Mrs. Sherber and Mrs. Tucker and some other women ran screaming into the smoking car. Sherber was held a prisoner on the train until the Seymour depot was reached when he was turned over to Policeman Elrod. He was placed in jail and at 11 o'clock Marshal Prewitt and Policeman Elrod drove him to Brownstown and placed him in the county jail. Mrs. Sherber was taken off the train and carried to the home of her sister, Mrs. Tucker, where Dr. Graessle and Dr. Casey dressed her wounds. Her wounds are serious but not necessarily fatal. She is getting along as well as could be expected and may recover.

It appears that Sherber and his wife had trouble at different times during their thirteen years of married life. When they lived here a few years ago it is alleged he threatened to kill her. Members of the family say that he beat his wife at Indianapolis about three years ago and for which he was sentenced to the work house by Judge Stubbs but that through the influence of some one he was released without serving the sentence. About two weeks ago they had trouble again and it is alleged that he threatened her life and she took refuge at the home of a neighbor. Then she decided to leave him and came from Indianapolis to the home of her parents, Mr. and Mrs. Suit Able, at Rockford, bringing their two children with her. Saturday night he followed and when they met on the train a few words were spoken after which he began shooting.

The gun used was a 32 calibre revolver which Conductor Jackson brought back to Seymour Sunday and turned over to Marshal Prewitt. It is just as it was taken from Sherber by the conductor and contains four empty shells and two loaded shells. It is a poor sort of a gun and in imperfect condition which accounts for its missing fire.

Sherber declines to talk about the case further than to say that the public does not know the whole story yet. He says he had been drinking and to one man he declared that he could not explain why he had shot his wife.

Monday morning he was brought from Brownstown by the deputy sheriff and arraigned before Mayor Graessle. He listened to the reading of the warrant charging him with assault and battery with intent to commit murder and plead not guilty. His attorney asked that a date be fixed for preliminary trial and the court set Sept. 1 for the hearing and fixed the defendant's bond at \$2,000. Deputy Prosecutor Ed Elsner appeared for the state. Sherber stated that he was not prepared to give the bond at this time and was taken back to jail. A. N. Menden has been engaged by Sherber to defend him.

A few years ago Sherber lived here. At that time he was a B. & O. S. W. brakeman. The past few years he has been employed by the Belt Railroad

Company at Indianapolis as a switchman. He has many acquaintances in this city and about Rockford, the home of his wife's parents.

### GOOD NEWS.

Many Seymour Readers Have Heard it and Profited Thereby.

"Good news travels fast," and the thousands of bad back sufferers in Seymour are glad to learn that prompt relief is within their reach. Many a lame, weak and aching back owe thanks to Doan's Kidney Pills. Our citizens are telling the good news of their experience with the Old Quaker Remedy. Here is an example worth reading:

Mrs. L. T. Gorrell, of 709 Brown street says: "I derived great benefit from the use of Doan's Kidney Pills. My son also suffered a great deal from his kidneys and the use of Doan's Kidney Pills built him up and after taking them he had no further annoyance. Some of the promoters of the proposed electric line from Columbus through Seymour and on to West Baden have gone to Chicago to consult some capitalists who have the proposition under advisement. William Woodward, an old railroad man and a former resident of this city, went with them to Chicago. It is said that the prospects of financing this proposed road are better than they have previously been and that something definite may be looked for soon.

### A Continual Strain.

Many men and women are constantly subjected to what they commonly term "a continual strain" because of some financial or family trouble. It wears and distresses them both mentally and physically, affecting their nerves badly and bringing on liver and kidney ailments, with the attendant evils of constipation, loss of appetite, sleeplessness, low vitality and despondency. They cannot, as a rule, get rid of the "continual strain," but they can remedy its health destroying effects by taking frequent doses of Green's August Flower. It tones up the liver, stimulates the kidney, insures healthy bodily functions, gives vim and spirit to one's whole being, and eventually dispels the physical or mental distress caused by that "continual strain." Trial bottle of August Flower, 2¢; regular size, 75c. For sale by W. F. Peter Drug Co.

## Women as Well as Men Are Made Miserable by Kidney and Bladder Trouble.

Kidney trouble preys upon the mind, discourages and lessens ambition; beauty, vigor and cheerfulness soon disappear when the kidneys are out of order or diseased.

Kidney trouble has become so prevalent that it is not uncommon for a child to be born afflicted with weak kidneys. If the child urinates too often, if the urine scalds the flesh, or if, when the child reaches an age when it should be able to control the passage, it is yet afflicted with bed-wetting, depend upon it, the cause of the difficulty is kidney trouble, and the first step should be towards the treatment of these important organs. This unpleasant trouble is due to a diseased condition of the kidneys and bladder and not to a habit as most people suppose.

Women as well as men are made miserable with kidney and bladder trouble, and both need the same great remedy. The mild and the immediate effect of Swamp-Root is soon realized. It is sold by druggists, in fifty-cent and one-dollar size bottles. You may have a sample bottle by mail free, also a Home of Swamp-Root pamphlet telling all about Swamp-Root, including many of the thousands of testimonial letters received from sufferers cured. In writing Dr. Kilmer & Co., Binghamton, N. Y., be sure and mention this paper. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

### Regimental Reunions and Forty-Second Anniversary Battle Chickamauga.

Chattanooga, September 17-21, 1905.

On September 18, 1905, will occur the forty-second anniversary of the Battle of Chickamauga. It is proposed to celebrate this memorable event with a reunion of the various regiments that participated in this memorable battle, and, in addition, to hold at the same time, a grand reunion of all the regiments that participated in the various battles fought around Chattanooga. This reunion will be held at Chickamauga National Park, September 18, 19 and 20, and the present indications are that it will be the largest and most notable gathering ever held in the south. On the above dates, the remnants from the armies of twelve states, comprising the following: Pennsylvania, Ohio, Michigan, Indiana, Illinois, Wisconsin, Minnesota, Iowa, Nebraska, Missouri, Kansas and Kentucky, will assemble, many for the first time since they marched from their blood-stained fields, forty-two years ago.

Grand and glorious will be the meeting and all who attend will have cause to rejoice. The lowest rate ever secured has been given, the entire public for this occasion, one cent per mile, short line distance.

There is one of the great opportunities for the education of the youth. Don't fail to take your children and show them historic Chattanooga, with all its historical connections. It is the opportunity of a lifetime. Go and see the old war generals and other officers point out the places of interest on the battlefield; let them show you and explain, in person, the markers erected on the battlefield showing the positions of the opposing armies at the time of battle. It will not be long until there will be left to this noble war; take this opportunity and don't let it escape you, it is worth six months in the school room to any student.

It will be many years, if ever again, that such an opportunity will present itself. See that your tickets read via the Louisville & Nashville R. R., the Battlefield Route. Call on your nearest railroad agent for rates and advertising matter pertaining to the reunion or write to nearest representative of the Louisville & Nashville R. R.

### EDITOR'S OUTING.

Had a Delightful Time at Beautiful Winona.

The Indiana Republican Editorial Association never had a more pleasant outing than this one at Winona. The Winona management showed every courtesy possible to the editorial party. We carried passes that were honored at about every place on the grounds but our hotel and it was good for reduced rates there. The newspaper men are under special obligation to Col. George B. Lockwood, assistant manager of the Winona Assembly.

Winona is certainly a most delightful place to visit. The park is one of great beauty and is being materially improved each year. The lake is one of the most beautiful in northern Indiana. The cottages, hotels and all the assembly buildings are attractive. The lectures, concerts and various entertainments every day add to the enjoyment and benefit of an outing at this place. One does not need to be there long before he is conscious of the splendid management of Winona and the high moral tone that prevails.

It is no wonder that Winona is growing in popularity. It was founded on right principles and is managed along right lines. It is a good place for a man to take his family and spend a few days or a few weeks. It is a restful place and at the same time is such a diversified line of entertainment that time passes rapidly.

Last week nearly 200 Culver cadets were there and their maneuvers both on land and water were very interesting to the editorial party. The summer schools are largely attended and students are there from all parts of the state.

Along with the republican editors came numerous politicians and candidates to Winona. The candidates made themselves very agreeable. Among them were Fred Sims, who seems to have a clear field for secretary of state; John C. Billheimer, candidate for state auditor; John W. Dyer, Thos. B. Milliken and Oscar Hadley, opposing aspirants for state treasurer; E. E. Neal and Ed. Fitzpatrick, each of whom desires to succeed Bob Brown as clerk of supreme court; Fassett A. Cotton and J. H. Tomlin, rival candidates for superintendent of public instruction, and Judge Heaton who desires to succeed Judge Monks on the supreme bench. Senator Hemenway, Congressman Foster, Chaney and Brick, State Chairman Goodrich, Union B. Hunt, Elam Neal, Joseph B. Kealing, and other well known republicans made it convenient to "happen in" last week while the editorial brethren were there. Some politics was talked but the newspaper men were not there for that purpose therefore no "big deals" were closed.

### SEEING AMERICA.

Wonderful Scenic Trip Across Rocky Mountains to Oregon Exposition.

In certain respects the excursions to the Lewis and Clark Centennial Exposition, Portland, Oregon, via Pennsylvania Lines, beginning May 23rd and continuing through the summer, offer advantages never before presented to Exposition visitors. The trip to the Oregon Exposition, in addition to the attractiveness of the extensive exhibits, includes the journey through the scenic wonderland of the Rocky Mountains and the Cascade Range, and what America has not looked forward from the days of the geography class in school to the time when those great sights should be seen in reality. The trip was never so favorable as now. The trip may be made less expensive than ever. For only a slight difference in fare tourists may extend their trip to San Francisco and Los Angeles. The return trip may be made over a different route, enabling travelers to view much more of the west. For full particulars, fares, dates of special excursions to Portland on account of conventions, through time tickets via New York and New York, or via Philadelphia and New York, apply to ticket agent of Pennsylvania Lines.

### ASBURY PARK EXCURSIONS

The fare is the same over all routes. Stop-overs at Washington, Baltimore and Philadelphia will be allowed on tickets reading through those cities, within the time limit, ample for sight-seeing. A stop-over at New York on the return trip will be granted on tickets routed via that city.

## LIGHTNING'S WRECK

Five Killed and Many Prostrated in Coney Island Crowd.

New York, July 31.—During a thunderstorm of terrific intensity which passed over New York Sunday afternoon five persons were struck by lightning and killed and nine were seriously injured at the Parkway beach, Coney Island. At the same time one man was killed and three others were prostrated at Gravesend Beach.

The intense heat of the morning attracted a great multitude to the shore resorts and later in the afternoon, when the storm blew up from the west, Parkway Beach was thronged with bathers and spectators. The rain descended in torrents and hundreds of men, women and children sought shelter under the big bathhouse, which is elevated above the sand on piles. The lightning was incessant and terrific thunder claps shook the bathhouse, to the terror of the crowd huddled together beneath it. A few minutes before 5 o'clock a bolt of lightning struck the flagstaff and grounded in the very thickest of the crowd. Nearly fifty persons were prostrated and the rest, screaming with terror, rushed out into the storm. Those who had remained in the water were also panic-stricken and fled in all directions, not daring to enter the bathhouse, which appeared to be on fire.

Ambulances were summoned from all the nearest hospitals and on their arrival five persons were found dead and nine unconscious under the bathhouse. The bodies of all were scorched by the electric fluid. The nine injured were removed to a hospital, where it was said that some probably would die. Many persons less seriously hurt were taken home by friends. A slight fire in the bathhouse was quickly extinguished by the rain.

### A Grim Tragedy

is daily enacted, in thousands of homes, as death claims, in each one, another victim of consumption or pneumonia. But when coughs and colds are properly treated, the tragedy is averted. F. G. Huntly, of Oakland, Ind., writes: "My wife had the consumption, and three doctors gave her up. Finally she took Dr. King's New Discovery for consumption, coughs and colds, which cured her, and today she is well and strong." It kills the germs of all diseases. One dose relieves. Guaranteed at 50c and \$1.00 by W. F. Peter Drug Co.

### Sickening Shivering Fits

If ague and malaria, can be relieved and cured with Electric Bitters. This is a pure, tonic medicine; of especial benefit in malaria, for it exerts a true curative influence on the disease, driving it entirely out of the system. It is much to be preferred to Quinine, having none of this drug's bad after-effects. "E. S. Monway, of Henrietta, Texas, writes: My brother was very ill with malarial fever and jaundice, till he took Electric Bitters, which saved his life." At W. F. Peter Drug Co. Price 50c, guaranteed.

## Rheumatism

Like Neuralgia, is now known to be a nervous disease. The kidneys become weak through lack of nerve energy, and fail to filter the uric acid from the blood; this acid attacks and burns the nerves and muscles, and consumes the oil in the joints, producing inflammation, fever, swelling—pain.

To cure Rheumatism, then, you must restore the kidney nerves and muscles, and neutralize the effect of the acid upon the joints and tissues with Dr. Miles' Restorative Nervine, a nerve medicine, which has made many cures of this painful disease. Nervine strengthens the kidney nerves and increases the circulation, and relief is assured.

"Before I took Dr. Miles' Nervine, I had been looking for a cure for Rheumatism for 25 years. The last time I was laid up for several months, could not get out of bed or set foot on the floor. I tried remedies to rub in, to drink, doctors' prescriptions, etc., but none of them had any effect. One day I read about Dr. Miles' Nervine and got a bottle. After the first dose I had a good night's rest, and after taking half a bottle the pains disappeared, and I went out and walked all around the town. In a week I went to work, and was perfectly cured, but continued to take the medicine for a time, to make sure the pains would not come back."

213 N. Chatham St., Racine, Wis.  
Dr. Miles' Nervine is sold by your druggist, who will guarantee that the first bottle will benefit you. If it fails, he will refund your money.

### Sunday Closing Defeated.

### Swells of Ancient Egypt.

From what has come down to us, written, painted or chiseled, the Egyptian lord must have been a great swell. The details of the twelfth dynasty show Egyptian elegance at its best. The lord has a lion's head, his mihrab (throne), called "superintendent of the provision house." There was a "superintendent of the baking house," and the mixer of drinks had the title of "scribe of the sideboard." Perhaps he was a butler and regulated the supply of wines from the cellar. There were gardeners, porters and handcraft men, all busy in attending to the master. "A preparer of sweets" must have been a confectioner. The Egyptian when he was no longer mortal had hopes of being well fed in the hereafter, as he believed he would be nourished in his particular heaven with abundant goose and beef. Offerings to gods show the variety of the Egyptian menu, and in one are included ten kinds of cooked meat, five kinds of bread and cake, six assorted wines, four brews of beer, eleven sorts of fruits and an endless number of sweet things.

### Spoiled Her Beauty.

Harriet Howard, of 209 W. 34th St. New York, at one time had her beauty spoiled with skin trouble. She writes: "I had salt rheum or eczema for years, but nothing would cure it, until I used Bucklen's Arnica Salve." A quick and sure healer for cuts, burns and sores. 25c at W. F. Peter Drug Co.

### NATURAL RESOURCES

Found in Abundant Quantities  
in Nearly Every County.

State Geologist Blatchley Is Preparing  
a Comprehensive Exhibit  
Along This Line.

Indianapolis, July 31.—Indiana's rapid rise as one of the best "good roads" states in the country will be the basis of the 1905 report of W. S. Blatchley, chief of the state geological department. The natural deposit of stone and gravel in nearly every county in

the state is far above the other states, and the geologist thinks there is no reason why every section of Indiana should not have excellent roads.

"I have five assistants in different parts of the state working on the 'good roads' report for 1905. A section is laid out for each, and their reports will be given. In many places they are finding gravel beds where they were never known to exist. Everywhere they are advocating the necessity of good roads. The mileage of macadam and gravel roads of the state will be compiled. The report will be the most entire ever published."

### PRIVATE BANKING-LAW

New Regulations Prove Effective in Indiana.

Indianapolis, July 31.—"Every private bank in the state has either complied with the law, changed to a state or national bank, or gone out of business," said George U. Bingham, head of the banking department in the auditor of state's office.

Until a few weeks ago there were twelve private banks still violating the law in several particulars. Proceedings were ordered against each one of them by Auditor of State David E. Sherick. Following these instructions the prosecuting attorney in each county where an outlaw banker was located filed suit.

It was learned that most of the banks dropped out of existence, while the remainder either changed to a state or national institution. During the past week four former private banks have filed articles of incorporation as state banks.

### Brooded Over Love Affair.

## KIDNEY DISEASES CAUSE ONE-THIRD OF THE TOTAL DEATHS.

When the Kidneys fail to perform their functions properly by not straining out the poisonous waste matter from the blood as it passes through them, the poisons are carried by the circulation to every part of the body, deranging the different organs. This causes heart trouble, stomach trouble, sluggish liver and a host of other ills, all due to deranged Kidneys.

## FOLEY'S KIDNEY CURE

corrects irregularities and cures Kidney and Bladder diseases in every form, tones up the whole system, and the diseases that have resulted from disordered Kidneys disappear, because the cause has been removed. Commence taking FOLEY'S KIDNEY CURE at the first sign of danger. Do not risk having Bright's Disease or Diabetes.

CURED OF BRIGHT'S DISEASE.

Mr. Robert O. Burke, Elmora, Saratoga Co., N. Y., writes:—I am glad to have an opportunity of telling what magnificent results I have had from using FOLEY'S KIDNEY CURE after having tried other advertised medicines and several physicians. Before I began it I had to get up from 15 to 20 times each night to relieve my bladder. I was all bloated up with dropsy and my eyesight was so impaired that I could scarcely see one of my family members. In fact, I was so badly used up that I had given up hope of living when I was urged by a friend to try FOLEY'S KIDNEY CURE. One 50-cent bottle worked wonders, and before I had taken the third bottle the superfluous flesh had gone, as well as all other symptoms of Kidney trouble. My friends were surprised that I was cured, as they all thought I was going to die. Every few days some one comes from miles away to learn the name of the wonderful medicine that cured me of Bright's Disease, and not one that has tried it has failed to be benefited.
